SKILLS

Node js	**JWT token**	**Frontend Rect**	**MYSQL,MONGOI**
Express	**Cookies**	**HTML CSS**	**OOPS,C++**
RestApi	**javascript**	**DBMS**	**GIT,cloudcomputing**

EDUCATION

B.Tech computer Science

🏛 Chandigarh group of collage   📅 2021-2025

• overall CGPA: 8.5

Intermediat

🏛 D.A.V Public Shool   📅 2020-2021

• overall CGPA: 8.7

PROJECT

CargoConnect – Truck Booking Platform

▦ Node.js | Express | Sequelize | HTML/CSS)   🗓

Keywords:

Developed a truck booking system with backend logic to add trucks, book trucks, and update availability. Implemented RESTful APIs for dynamic truck listing and quantity management. Designed simple and responsive frontend using HTML CSS, connected to backend operations. Ensured data accuracy with optimized queries and server-side validation.

QuickChat – Real-time Messaging App

▦ *(Node.js | Express | Socket.io | MongoDB | HTML/CSS*   🗓

Keywords:

Built a real-time chat application using WebSockets for instant communication. Added user authentication and secure sessions for personalized access. Supported one-to-one and group chat rooms with message persistence via MongoDB. Optimizedbackend event-driven architecture for handling concurrent users smoothly

SmartExpense – Personal Finance Tracker

▦ *(Node.js | Express | Sequelize | Razorpay)*   🗓

Keywords:

Built a secure expense tracking platform with JWT-based authentication and cookie handling. Integrated Razorpay (test mode) for premium membership simulation. Designed relational models (User, Expense, Order) with Sequelize ORM. Developed an interactive expense dashboard with personalized tracking and analysis.

AWARDS/CERTIFICATE

Postman Rest Api Bdges	***2nd position in product launch***	***mysql***	***javascript***
certificate of postman api regarding lerning api work	Less than 12 parsecs	hackerank mysql certificate	udemy javascript certificate
